For Immediate Release:

Unimed Government Services Wins Multi-Year Department of Defense Contract Valued up to $25M

Certified woman-owned business to provide hospital equipment and accessories to Department of Defense and other federal organizations

Concord, Mass and LAKEVILLE, Minn.—July 11, 2019—Unimed Government Services (UGS), a leading provider of supply chain solutions for government, schools, public health organizations and the private sector, announced today that it has received a five-year Department of Defense contract to provide hospital equipment and accessories in support of the DOD’s mission to protect the security of the United States. The maximum value of the award is $25,000,000.

The DoD selected UGS as part of a competitive review of 58 respondents. The contract is a $25,000,000 maximum, fixed-price with economic-price-adjustment, indefinite-delivery/indefinite-quantity agreement for hospital equipment and accessories for the Defense Logistics Agency electronic catalog. The location of performance is Minnesota with a contract completion date of October 22, 2023.

“UGS has a long-standing record of providing a unique combination of dental and medical equipment, product expertise and customized solutions that help organizations provide exceptional care for their members,” said Judith Manchester, chief executive officer for UGS. “We look forward to applying our high standards of service excellence coupled with best-in-class technologies to support the agencies that care for some of the hardest working people in America, including our service men and women and their families.”

The contracting activity is the Defense Logistics Agency Troop Support, Philadelphia, Pennsylvania (SPE2DH-19-D-0005). For more information about the award, please visit the Department of Defense website.

About UGS
Unimed Government Services (dba UGS Medical) has helped more than 10,000 clinics deliver healthcare excellence since its creation in 2010. As a distributor of the world’s best dental,
medical and infection control technologies, UGS helps government, municipalities, schools, public health organizations and the private sector deliver high-quality care to their members. UGS hand selects the finest, most cost-effective products and equipment, from capital equipment and software to dental instruments, clinic and laboratory cabinetry, case work and infection control technologies. With deep expertise in clinic and laboratory design, UGS also creates custom, end-to-end solutions. UGS is a member of several professional societies dedicated to safe, quality care delivery, including the Organization for Safety, Asepsis and Prevention (OSAP), the American Dental Educators Association (ADEA), the National Defense Industrial Association (NDIA), and Woman in Defense (WID). Based in Lakeville, Minn. and Concord, Mass., UGS is a certified woman-owned small business (WOSB) and member of the Woman Business Enterprise National Council (WBENC).
